

Curriculum Vita

16 November 2009

Daniel B. Szyld

EDUCATION:

Undergraduate studies at the School of Exact Sciences (Mathematics), Universidad de Buenos Aires, Argentina, 1973–1977.

Courant Institute of Mathematical Sciences, New York University, 1977–1983. M.S. in Mathematics, 1979. Ph.D. in Mathematics (Numerical Analysis), 1983.

DOCTORAL DISSERTATION: A Two-level Iterative Method for Large Sparse Generalized Eigenvalue Calculations, October 1983. Olof B. Widlund, advisor.

POSITIONS HELD:

Department of Mathematics, School of Exact Sciences, University of Buenos Aires, Teaching Assistant (April 1975–July 1977), Visiting Associate Professor (August 1984, August 1988).

Agricultural Division, National Committee of Atomic Energy, Argentina, Research Assistant (June 1975 –July 1977).

Institute for Economic Analysis, New York University, Research Assistant (1978), Assistant Research Scientist (1978–1980), Associate Research Scientist (1980–1985).

Department of Computer Science, Courant Institute of Mathematical Sciences, New York University, Adjunct Professor (Spring 1984, Spring 1985).

Department of Mathematics, Pontificia Universidade Católica do Rio de Janeiro, Brazil, Visiting Researcher (May–June 1985, June–July 1986).

Department of Computer Science, Duke University, Visiting Assistant Professor (1985–1986), Assistant Professor (1986–1990).

Institute for Computational Mathematics, Department of Mathematical Sciences, Kent State University, Kent, Ohio, Visiting Research Scientist (Fall 1989).

Department of Mathematics, Temple University, Associate Professor (1990–1995), Professor (since 1995).

YEAR APPOINTED AT TEMPLE AND RANK AT APPOINTMENT:

1990, Associate Professor.

YEAR OF TENURE: 1991.

YEAR OF PROMOTION TO FULL PROFESSOR: 1995.

93. Marcus Sarkis and Daniel B. Szyld, Dynamically Adapted Inexact Additive Schwarz Preconditioner, Seventh IMACS Conference on Iterative Methods, Toronto, Canada, 5–7 May 2005.
94. Valeria Simoncini and Daniel B. Szyld, Convergence of Krylov Subspace Methods when using Non-optimal Bases, Seventh IMACS Conference on Iterative Methods, Toronto, Canada, 5–7 May 2005.
95. Valeria Simoncini and Daniel B. Szyld, The effect of non-optimal bases on the convergence of Krylov subspace methods, Householder XVI Symposium on Numerical Linear Algebra, 23–27 May 2005, Seven Springs Mountain Resort, Champion, Pa. Attendance by invitation only.
96. Marcus Sarkis and Daniel B. Szyld, Dynamically Adapted Inexact Additive Schwarz Preconditioner and Energy Norm Minimizing Residual Methods, SIAM Annual Meeting, New Orleans, 11–15 July 2005.
97. Marcus Sarkis and Daniel B. Szyld, Dynamically Adapted Inexact Additive Schwarz Preconditioner and Energy Norm Minimizing Residual Methods, Conference on Applied Linear Algebra, in honor of Richard Varga. Palić, Serbia and Montenegro, 12–15 October 2005. Invited Plenary Speaker.

98. Valeria Simoncini and Daniel B. Szyld, Practical use of Krylov Subspace Methods: Inexact and Truncated Versions, International Congress on the Applications of Mathematics, Santiago, Chile, 13–17 March 2006. Invited Speaker in the Thematic Session: Matrix Analysis and Applications.
99. Marcus Sarkis and Daniel B. Szyld, Optimal Left and Right Additive Schwarz Preconditioning for Minimal Residual Methods with Euclidean and Energy Norms, Ninth Copper Mountain Conference on Iterative Methods, Copper Mountain, Colorado, 2–7 April 2006.
100. Efstratios Gallopoulos, Giorgos Kollias, and Daniel B. Szyld, Asynchronous Parallel Solution of Markov Chains: Application to PageRank, A. A. Markov Anniversary Meeting, Charleston, South Carolina, 12–14 June 2006.
101. Marcus Sarkis and Daniel B. Szyld, Optimal Left and Right Additive Schwarz Preconditioning for Minimal Residual Methods with Euclidean and Energy Norms, Seventeenth International Conference on Domain Decomposition Methods, Strobl/St. Wolfgang, Austria, 3–7 July 2006.
102. Daniel B. Szyld, On an Identity on Norms of Oblique Projections, Thirteenth ILAS Conference, Amsterdam, The Netherlands, 18–21 July 2006.
103. Marcus Sarkis and Daniel B. Szyld, Optimal Left and Right Additive Schwarz Preconditioning for Minimal Residual Methods with Euclidean and Energy Norms, Thirteenth ILAS Conference, Amsterdam, The Netherlands, 18–21 July 2006.
104. Marcus Sarkis and Daniel B. Szyld, Optimal Left and Right Additive Schwarz Preconditioning for Minimal Residual Methods with Euclidean and Energy Norms, Numerical Analysis Day on Innovative Numerical Methods in Engineering Applications, Bologna, Italy, 18 September 2006. Invited speaker.
105. Daniel B. Szyld, Numerical Linear Algebra, APAC Summer Workshop on Computational Science, Queensland University of Technology, Brisbane, Australia, 4–8 December 2006. Invited speaker, six-hour course.
106. Daniel B. Szyld, Inexact Krylov Subspace Methods for PDEs and Control Problems, DOE ASCR Annual Applied Mathematics Research Program PI meeting, 22–24 May 2007, Lawrence Livermore National Laboratory, Livermore, California.
107. Abed Elhashash and Daniel B. Szyld, Perron-Frobenius Properties of General Matrices, Fourteenth ILAS Conference, Shanghai, People’s Republic of China, 16–20 July 2007.
108. Valeria Simoncini and Daniel B. Szyld, New conditions for non-stagnation of GMRES, and corresponding convergence bounds, “Harrachov 2007,” Computational Methods with Applications, Harrachov, Czech Republic. 19–25 August 2007,

109. Valeria Simoncini and Daniel B. Szyld, New conditions for non-stagnation of minimal residual methods, Matrix Analysis and Applications, CIRM Luminy, France, 15–19 October 2007. Attendance by invitation only.
110. Abed Elhashash and Daniel B. Szyld, Perron-Frobenius properties and a generalization of M -matrices, Hans Schneider’s 80th Birthday Celebration at UConn, 1–2 November 2007, University of Connecticut, Storrs. Invited speaker.
111. Valeria Simoncini and Daniel B. Szyld, New conditions for non-stagnation of GMRES, and corresponding convergence bounds, Eighteenth International Conference on Domain Decomposition Methods, The Hebrew University of Jerusalem, Israel, 12–17 January 2008.
112. Daniel B. Szyld, Inexact Krylov Subspace Methods for PDEs and Control Problems, Gene Golub Memorial Conference, Dartmouth, Massachusetts, 29 February 2008.
113. Daniel B. Szyld, Inexact Krylov Subspace Methods for PDEs and Control Problems, Ninth IMACS International Symposium on Iterative Methods in Scientific Computing, Lille, France, 17–20 March 2008, Invited Speaker.
114. Sébastien Loisel and Daniel B. Szyld, On the convergence of Algebraic Optimizable Schwarz Methods with applications to elliptic problems, Ninth IMACS International Symposium on Iterative Methods in Scientific Computing, Lille, France, 17–20 March 2008, Invited Speaker for the minisymposium on Domain Decomposition methods.
115. Abed Elhashash and Daniel B. Szyld, Perron-Frobenius Properties and a Generalization of M -matrices, Conference on Applied Linear Algebra in Honor of Ivo Marek, 28–30 April 2008, Novi Sad, Serbia. Invited plenary speaker.
116. Inexact Krylov Subspace Methods for Parabolic Control Problems, Memorial Workshop for Ralph Byers, 31 May – 1 June, 2008, Institute for Mathematics, Technical University, Berlin, Germany.
117. Abed Elhashash and Daniel B. Szyld, On General Matrices Having the Perron-Frobenius Property, Fifteenth Conference of the International Linear Algebra Society (ILAS), 16–20 June 2008, Cancun, Mexico.
118. Andreas Frommer, Reinhard Nabben, and Daniel B. Szyld, Convergence of Stationary Iterative Methods for Hermitian Semidefinite Linear Systems, Fifteenth Conference of the International Linear Algebra Society (ILAS), 16–20 June 2008, Cancun, Mexico.
119. Daniel B. Szyld, Inexact Krylov Subspace Methods for PDEs and Control Problems, SIAM Annual meeting, 7–11 July 2008, San Diego, California.

120. Daniel B. Szyld, Modern Krylov Subspace Methods for Parabolic Control Problems, Conference in Numerical Analysis (NumAn2008), Recent Approaches to Numerical Analysis: Theory, Methods, and Applications (honoring Richard S. Varga on his 80th birthday), 1–5 September 2008, Kalamata, Greece.
121. Martin Gander and Daniel B. Szyld, An Optimal Block Iterative Method and Preconditioner for Banded Matrices, Workshop on Structured Linear Algebra Problems: Analysis, Algorithms, and Applications, 15–19 September 2008, Cortona, Italy. Attendance by invitation only.
122. Martin Gander and Daniel B. Szyld, Very fast convergence of Algebraic Optimizable Schwarz methods and preconditioners, Fast Algorithms for Scientific Computing, A Symposium in Honor of Olof B. Widlund on the Occasion of His 70th Birthday, 19–20 September 2008, Courant Institute, New York University, New York.
123. Martin Gander and Daniel B. Szyld, Very fast convergence of Algebraic Optimizable Schwarz methods and preconditioners, DOE ASCR Annual Applied Mathematics Research Program PI meeting, Argonne National Laboratory, Argonne, Illinois, 15–17 October 2008.
124. Martin Gander and Daniel B. Szyld, An Optimal Block Iterative Method and Preconditioner for Banded Matrices, Conference on the Occasion of Richard Varga's 80th Birthday, Kent State University, Kent, Ohio, 17–18 October 2008.
125. Daniel B Szyld, Eventually Nonnegative and other Matrices with Perron-Frobenius Properties, Workshop on Nonnegative Matrix Theory: Generalizations and Applications, American Institute of Mathematics, Palo Alto, California, 1–5 December 2008. Attendance by invitation only.
126. Daniel B Szyld, Application of inexact and truncated Krylov Subspace Methods to the solution of parabolic control problems, AMS Special Session on Mathematics of Computation, Joint Mathematics Meetings, Washington, DC, 5–8 January 2009.
127. Daniel B Szyld, An optimal block iterative method and preconditioner for banded matrices, Numerical Analysis and Scientific Computation with Applications (NASCA), 18–22 May 2009, Agadir, Morocco. Invited plenary speaker.
128. Daniel B Szyld, Modern Krylov Subspace Methods for Parabolic Control Problems, Twentyfourth IFIP TC7 Conference on System Modelling and Optimization, Buenos Aires, Argentina, 27–31 July 2009. Invited plenary speaker.
129. Daniel B Szyld, Very fast methods and preconditioners for banded matrices and PDEs on irregular domains, Third Conference of Latinamerican Mathematicians (III CLAM), Santiago, Chile, 31 August – 4 September, 2009. Invited Speaker in the Thematic Session: Numerical Analysis.
130. Abed Elhashash and Daniel B Szyld, Generalized M -Matrices, SIAM Conference on Applied Linear Algebra, Monterey, California, 25–29 October 2009.

131. Daniel B Szyld, Optimal Block Method and Preconditioner for Banded Matrices SIAM Conference on Applied Linear Algebra, Monterey, California, 25–29 October 2009.

INVITED SEMINARS AND COLLOQUIA:

1. Some Methods for Eigenvalue Problems, IIMAS (Institute for Research in Mathematical Analysis and Systems), UNAM (National Autonomous University of Mexico), Mexico City, August 7, 1979.
2. Sparse Matrix Techniques, Computer Center, CONEA (National Committee of Atomic Energy), Buenos Aires, Argentina, January, 1981.
3. Dynamic Input-Output Model of the U.S. Economy, Department of Economics, University of Bremen, Bremen, Fed. Republic of Germany, May 25, 1986.
4. Aggregation Methods for Input-Output Matrices, Central Bureau of Statistics, Oslo, Norway, May 29 and 30, 1986.
5. Convergence of block and nested iterative methods for linear systems, Department of Mathematics and Computer Science, University of Tulsa, Tulsa, Oklahoma, October 18, 1988.
6. Convergence of block and nested iterative methods for linear systems, Department of Mathematics, University of Utah, Salt Lake City, Utah, October 31, 1988.
7. Convergence of block and nested iterative methods for linear systems, IIMAS (Institute for Research in Mathematical Analysis and Systems), UNAM (National Autonomous University of Mexico), Mexico City, March 16, 1989.
8. Convergence of block and nested iterative methods for linear systems, Department of Numerical Mathematics, Charles University, Prague, Czechoslovakia, April 26, 1989.
9. Parallel Solution of Generalized Eigenvalue Problems, Department of Numerical Mathematics, Charles University, Prague, Czechoslovakia, March 21, 1990.
10. Regions of Convergence of Rayleigh Quotient Iteration, IIMAS (Institute for Research in Mathematical Analysis and Systems), UNAM (National Autonomous University of Mexico), Mexico City, March 15, 1991.
11. Regions of Convergence of Rayleigh Quotient Iteration, Department of Numerical Mathematics, Charles University, Prague, Czechoslovakia, April 17, 1991.
12. Regions of Convergence of the Rayleigh Quotient Iteration Method, Numerical Analysis Seminar, Courant Institute, New York University, January 22, 1993.
13. H -Splittings, Multisplittings, and Two-Stage Iterative Methods, Department of Numerical Mathematics, Charles University, Prague, Czech Republic, 19 May 1993.

14. Regiones de Convergencia del Método de Iteración del Cociente de Raleigh para Autovalores, Applied Mathematics Seminar, Universidad Politécnica de Valencia, Valencia, Spain, 1 June 1995.
15. Threshold Partitioning of Sparse Matrices and Applications to Markov Chains, Numerical Analysis Seminar, Courant Institute, New York University, 19 April 1996.
16. Splittings of Singular Matrices, State Key Laboratory of Scientific Computing, Academia Sinica, Beijing, 18 March 1997.
17. Parallel Asynchronous Methods for Linear Systems, Department of Computer Science and Engineering, Penn State University, 4 April 1997.
18. Asynchronous Weighted Additive Schwarz Methods, Department of Information Technology and Computer Science, University of Alicante, Spain, 23 May 1997.
19. Parallel Asynchronous Additive Schwarz Methods, CERFACS, Toulouse, France, 27 May 1997.
20. The Effects of Reorderings on the Convergence of Krylov Subspace Methods for Nonsymmetric Linear Systems, Department of Applied Mathematics, University of Freiberg, Germany, 23 June 1997.
21. The Effects of Reorderings on the Convergence of Krylov Subspace Methods for Nonsymmetric Linear Systems, Department of Applied Computer Science, University of Wuppertal, Germany, 27 June 1997.
22. Parallel Asynchronous Additive Schwarz Methods, Colloquium at the Department of Mathematics, Georgetown University, Washington, D.C., 14 November 1997.
23. Asynchronous Additive Schwarz Methods, Analysis Seminar, Department of Mathematics, University of Pennsylvania, Philadelphia, 25 November 1997.
24. Parallel Asynchronous Methods for the Solution of Linear Systems, School of Exact Sciences, University of Buenos Aires, Buenos Aires, Argentina, 14 December 1998.
25. Asynchronous Parallel Iterative Methods for Linear and Nonlinear Problems, Numerical Analysis Seminar, Los Alamos National Laboratory, Los Alamos, New Mexico, 27 October 1999.
26. Asynchronous Parallel Iterative Methods for Linear and Nonlinear Problems, Colloquium, Department of Mathematics, University of Bielefeld, Germany, 22 February 2000.
27. Comparison Theorems for the Convergence Factor of Iterative Methods for Singular Matrices, Colloquium, Department of Mathematics, University of Düsseldorf, Germany, 24 February 2000.

28. On the Theory of Additive and Multiplicative Schwarz Methods, Colloquium, Department of Mathematics, University of Wuppertal, Germany, 29 February 2000.
29. Asynchronous Parallel Iterative Methods for Linear and Nonlinear Problems, Scientific Computing and Computational Mathematics program, Stanford University, 17 April 2000.
30. Asynchronous Parallel Iterative Methods, Numerical Analysis Seminar, Department for Applied Mathematics and Mechanics, University of Warsaw, Poland, 27 April 2000.
31. Asynchronous Parallel Iterative Methods for Linear and Nonlinear Problems, Applied Linear Algebra Seminar, Institute of Computer Science, Academy of Science of the Czech Republic, Prague, 2 May 2000.
32. On the Computational Schwarz Method, Department of Computer Science and Artificial Intelligence, University of Alicante, Spain, 18 July 2000.
33. Algebraic Theory of Additive and Multiplicative Schwarz, CERFACS, Toulouse, France, 19 July 2000.
34. Asynchronous Parallel Iterative Methods for Linear and Nonlinear Problems, Applied Mathematics Seminar, University of Michigan, Ann Arbor, 10 November 2000.
35. Asynchronous Parallel Iterative Methods for Linear and Nonlinear Problems, Seminar, Mathematical Sciences Department, Worcester Polytechnic Institute, Worcester, Massachusetts, 16 February 2001.
36. Algebraic Theory of Schwarz Methods for Domain Decomposition, Colloquium in Applied Mathematics, New Jersey Institute of Technology, Newark, New Jersey, 6 April 2001.
37. Asynchronous Parallel Iterative Methods for Linear and Nonlinear Problems, Seminar, Department of Mathematics and Computer Science, Drexel University, Philadelphia, 27 February 2002.
38. Theory of Inexact Krylov Subspace Methods and Applications to Scientific Computing, Lecture for the High Performance Computing Group, Electrical Engineering Department, COPPE, Federal University of Rio de Janeiro, Brazil, 18 July 2002.
39. Theory of Inexact Krylov Subspace Methods and Applications to Scientific Computing, Computational Mathematics Seminar, Institute of Pure and Applied Mathematics, Rio de Janeiro, Brazil, 19 July 2002.
40. Inexact Krylov Subspace Methods and Applications to Scientific Computing, Numerical Analysis Seminar, Courant Institute, New York University, 4 October 2002.

41. Convergence of Inexact Krylov Subspace Methods, Mathematics Department Colloquium, Distinguished Lectureship Series, University of Wyoming, Laramie, 27 March 2003.
42. Superlinear Convergence of Exact and Inexact Krylov Subspace Methods, Scientific Computing Seminar, Department of Mathematical Sciences, Emory University, Atlanta, 11 April 2003.
43. Convergence of Inexact Krylov Subspace Methods, Numerical Analysis Seminar, Departments of Computer Science and Mathematics, University of Maryland, College Park, 6 May 2003.
44. Convergence of Inexact Krylov Subspace Methods, Numerical Mathematics Seminar, Department of Mathematics, University of Bielefeld, Germany, 28 July 2003.
45. Convergence of Inexact Krylov Subspace Methods, Computer Science Department Colloquium, University of Illinois, Urbana-Champaign, 3 September 2003.
46. Convergence of Inexact Krylov Subspace Methods, Applied Mathematics Seminar, University of Utah, Salt Lake City, 26 March 2004.
47. Convergence of Inexact Krylov Subspace Methods, Scientific Computing Seminar, Lawrence Berkeley National Laboratory, Berkeley, California, 16 April 2004.
48. Convergence of Inexact Krylov Subspace Methods, Colloquium, Department of Mathematical Sciences, Kent State University, Kent, Ohio, 29 April 2004.
49. The effect of non-optimal bases on the convergence of Krylov Subspace Methods, Research Numerical Seminar, Institute for Mathematics, Technical University, Berlin, Germany, 22 June 2004.
50. Asynchronous Parallel Solution of Markov Chains: Application to PageRank, Research Numerical Seminar, Institute for Mathematics, Technical University, Berlin, Germany, 9 March 2005.
51. Reducing the Cost of Krylov Subspace Methods: Inexact and Truncated Versions. Colloquium, Department of Mathematics, University of Science and Technology, Cracow, Poland, 11 March 2005.
52. Reducing the Cost of Krylov Subspace Methods: Inexact and Truncated Versions. Computational and Applied Mathematics Seminar, Department of Mathematics, Pennsylvania State University, State College, Pennsylvania, 8 April 2005.
53. Reducing the Cost of Krylov Subspace Methods: Inexact and Truncated Versions. Computational Mathematics Seminar, Institute of Pure and Applied Mathematics, Rio de Janeiro, Brazil, 4 August 2005.
54. Convergence of Inexact Krylov Subspace Methods, Colloquium, Department of Mathematics, Universidad de Buenos Aires, Argentina, 22 August 2005.

55. How are the Ranking of the Web Pages Computed in Search Engines?, Special Seminar, Department of Computer Science, Universidad de Buenos Aires, Argentina, 23 August 2005.
56. Superlinear Convergence of Krylov Subspace Methods, Colloquium, Instituto Argentino de Matemática, Buenos Aires, Argentina, 10 March 2006.
57. Practical use of Krylov Subspace Methods: Inexact and Truncated Versions, Applied Mathematics Seminar, Centre for Research in Mathematics, Université de Montréal and McGill University, Montreal, Canada, 24 April 2006.
58. Practical use of Krylov Subspace Methods: Inexact and Truncated Versions, Mathematics Department Colloquium, Drexel University, Philadelphia, 8 May 2006.
59. Optimal Left and Right Additive Schwarz Preconditioning for Minimal Residual Methods with Euclidean and Energy Norms, Research Numerical Seminar, Institute for Mathematics, Technical University, Berlin, Germany, 23 May 2006.
60. Optimal Left and Right Additive Schwarz Preconditioning for Minimal Residual Methods with Euclidean and Energy Norms, Colloquium, Department of Mathematics, Università di Roma I "La Sapienza", Roma, Italy. 19 September 2006.
61. Optimal Left and Right Additive Schwarz Preconditioning for Minimal Residual Methods with Euclidean and Energy Norms, Advance Computational Modelling Centre Seminar, University of Queensland, Brisbane, Australia, 1 December 2006.
62. Practical use of Inexact Krylov Subspace Methods, Partial Differential Equations and Applied Analysis Seminar, Mathematical Sciences Department, Worcester Polytechnic Institute, Worcester, Massachusetts, 30 January 2007.
63. Optimal Left and Right Additive Schwarz Preconditioning for Minimal Residual Methods with Euclidean and Energy Norms, Numerical Mathematics and Optimization Seminar, Department of Mathematics and Computer Science, University of Freiberg, Germany, 19 February 2007.
64. Perron-Frobenius Properties of General Matrices, Colloquium of the Working Group on Modelling and Numerical Differential Equations, Institute for Mathematics, Technical University, Berlin, Germany, 23 February 2007
65. Perron-Frobenius Properties of General Matrices, Colloquium, Department of Mathematics, Universidad Carlos III, Madrid, Spain, 26 February 2007.
66. An Overview of Krylov Subspace Methods and their Application to Scientific Computing, Colloquium, Department of Mathematics, Tulane University, New Orleans, Louisiana, 12 April 2007.
67. Inexact Krylov Subspace Methods for PDEs and Control Problems Scientific Computing and Applied and Industrial Mathematics Seminar, University of British Columbia, Vancouver, Canada, 25 May 2007.

68. An Overview of Krylov Subspace Methods and their Application to Scientific Computing, Institute of Mathematics, Fudan University, Shanghai, People's Republic of China, 12 July 2007.
69. Marcus Sarkis and Daniel B. Szyld, Optimal Left and Right Additive Schwarz Preconditioning for Minimal Residual Methods with Euclidean and Energy Norms, Mathematics Colloquium, Université du Littoral, Côte d'Opal, Calais, France, 10 March 2008.
70. Modern Krylov Subspace Methods for Parabolic Control Problems, Numerical Analysis Seminar, Department of Mathematics, University of Geneva, Switzerland, 7 May 2008.
71. Overlapping Partitioning of Graphs and Applications to Preconditioning, Joint Colloquium, Departments of Mathematics and Computer Science, Universidad de Buenos Aires, Argentina, 22 July 2008.
72. Matrices with Perron-Frobenius Properties, Colloquium, Instituto Argentino de Matemática, Buenos Aires, Argentina, 23 July 2008.
73. An Optimal Block Iterative Method and Preconditioner for Banded Matrices, Drexel Mathematics Colloquium, Department of Mathematics, Drexel University, Philadelphia, 6 November 2008.
74. Matrices with Perron-Frobenius Properties, Mathematics Seminar, Technion, Israel Institute of Technology, Haifa, Israel, 18 December 2008.
75. A new iterative method and preconditioner for banded matrices and PDEs on irregular domains, Numerical Analysis Seminar, Dipartimento di Matematica, Università di Bologna, Italy, 26 May 2009.
76. An optimal iterative method and preconditioner for banded matrices and PDEs on irregular domains, Mathematics Colloquium, Université du Littoral, Côte d'Opal, Calais, France, 23 June 2009.
77. An optimal iterative method and preconditioner, Seminar on Numerical Analysis and Differential Equations, Université de Lille I, Lille, France, 25 June 2009.
78. On an identity on oblique projections, Undergraduate Seminar, University of Alabama at Tuscaloosa, 13 November 2009.
79. Very fast methods and preconditioners for banded matrices and PDEs on irregular domains, Research Seminar, University of Alabama at Tuscaloosa, 13 November 2009.

GRANTS AND CONTRACTS, EXTERNALLY FUNDED:

National Science Foundation Travel Grant, Cooperative Science Programs with Latin America and the Caribbean, A Scientific Visit to Plan Cooperative Research in Argentina in Mathematical Economics, April 1986, \$2,396.

- National Science Foundation Travel Grant, U.S.-Eastern Europe Cooperative Science Program, A Scientific Visit to Plan Cooperative Research in Czechoslovakia in Computational Mathematics, April 1989, \$900.
- Daniel B. Szyld, P.I., National Science Foundation Research Grant, Division of Mathematical Sciences, Program in Applied Mathematics, Mathematical Sciences: Block, Parallel and Nested Iterative Methods, July 1, 1988 – December 31, 1990, \$60,390.
- Daniel B. Szyld, P.I., National Science Foundation International Cooperative Research Grant, U.S.-Eastern Europe Cooperative Science Program, U.S.-Czechoslovakia Research on Analysis of Iterative Methods for Linear Operators (Mathematics), May 1, 1990 – October 31, 1993, \$16,310.
- Daniel B. Szyld, P.I., National Science Foundation Research Grant, Division of Mathematical Sciences, Program in Applied Mathematics, Mathematical Sciences: Parallel, Block and Two-stage Iterative Methods for Linear Systems, September 1992 – February 1996, \$135,000.
- Daniel B. Szyld, P.I., National Science Foundation International Cooperative Research Grant, U.S.-Western Europe Cooperative Science Program, U.S.-Germany Cooperative Research in Applied and Computational Mathematics: Analysis of Block and Two-stage Iterative Methods, September 1992 – February 1996, \$10,750.
- Daniel B. Szyld, P.I., National Science Foundation International Cooperative Research Grant, U.S.-Western Europe Cooperative Science Program, U.S.-Spain Cooperative Research in Applied and Computational Mathematics: Parallel Solutions of Linear Systems, March 1996 – February 1999, \$11,000.
- Daniel B. Szyld, P.I., National Science Foundation Research Grant, Division of Mathematical Sciences, Program in Computational Mathematics, Mathematical Sciences: Blocks, Partitions, Asynchronous Parallel Methods, and Applications to Markov Chains and other problems, August 1996 – July 1999, \$75,000.
- Daniel B. Szyld, P.I., Anne Greenbaum, co-P.I., National Science Foundation International Workshop Grant, U.S.-Eastern Europe Cooperative Science Program, U.S.-Czech Mathematics Workshop on Iterative Methods and Parallel Computations, September 1996 – August 1997, \$13,760.
- Daniel B. Szyld, P.I., National Science Foundation Research Grant, Division of Mathematical Sciences, Program in Computational Mathematics, Computational and Applied Linear Algebra: Asynchronous Parallel Methods, Multiplicative Schwarz and other Problems, July 1999 – July 2001, \$58,000.
- Daniel B. Szyld, P.I., National Science Foundation Conference Grant, Division of Mathematical Sciences, Program in Computational Mathematics, Conference on Computational Linear Algebra with Applications, July 2002 – July 2003, \$14,000.

Daniel B. Szyld, P.I., National Science Foundation Research Grant, Division of Mathematical Sciences, Program in Computational Mathematics, Flexible Krylov Methods and Schwarz Preconditioners, September 2002 – August 2005, \$225,000.

Jesse Barlow, P.I., Charles Van Loan, Daniel B. Szyld, Hongyuan Zha, and Michael L. Overton, co-P.I.s, National Science Foundation Conference Grant, Division of Mathematical Sciences, Program in Computational Mathematics, XVI Householder Symposium on Numerical Linear Algebra; Champion, PA; May 23–27, 2005, September 2004 – August 2005, \$20,000.

Daniel B. Szyld, P.I., Department of Energy Research Grant, Office of Science, Program of Advanced Scientific Computing Research, Division of Applied Mathematics, Schwarz Preconditioners for Krylov Methods: Theory and Practice, May 2005 – April 2008, \$569,000.

Daniel B. Szyld, P.I., National Science Foundation Research Grant, Directorate for Computer and Information Science and Engineering, Division of Computer and Communication Foundations, Program of Theoretical Foundations, Asynchronous Parallel Methods with Overlap for Google Matrices, Dynamics of Biomolecules, and Other Markov Chains Problems, July 2005 – July 2008, \$30,000.

Daniel B. Szyld, P.I., Ilse Ipsen, Co-P.I., National Science Foundation Conference and Travel Grant, Division of Mathematical Sciences, Program in Computational Mathematics, Student and early career support for ISSNLA, May 2008 – April 2009, \$13,000.

Michael Overton, P.I., Xiao-Chuan Cai, Daniel Szyld, and David Keyes, co-P.I.s, Conference on a Conference on Scalable Parallel Algorithms for Partial Differential Equations, Department of Energy Research Grant, Office of Science, Program of Advanced Scientific Computing Research, Division of Applied Mathematics, July 2008 - June 2009, \$10,000.

Michael Overton, P.I., Xiao-Chuan Cai, Daniel Szyld, and David Keyes, co-P.I.s, Scalable Parallel Algorithms for Partial Differential Equations, National Science Foundation Conference and Travel Grant, Directorate for Computer and Information Science and Engineering, Division of Computer and Communication Foundations, Program of Theoretical Foundations, August 2008 - July 2009, \$25,000

Daniel B. Szyld, P.I., Department of Energy Research Grant, Office of Science, Program of Advanced Scientific Computing Research, Division of Applied Mathematics, Krylov Subspace and Schwarz Methods for PDEs and Control Problems, August 2008 – July 2011, \$540,000.

OTHER AWARDS AND HONORS:

Distinguished Scholar, Department of Mathematics, Temple University, academic year 2008–2009.

Commemorative Medal of the School of Physics and Mathematics, Charles University in Prague, June 1997, for “outstanding work in Numerical Linear Algebra.”

Summer Research Fellowship, Temple University, 1991, 1992, 1996, 2001.

TEACHING:

LIST COURSES TAUGHT IN THE LAST FIVE YEARS:

Advanced Calculus (undergraduate course)

Linear Algebra (undergraduate and graduate courses)

College Mathematics (undergraduate course, core requirement)

Introduction to Numerical Analysis (graduate course)

Numerical Linear Algebra (two-semester graduate course)

Numerical Differential Equations (two-semester graduate course)

Seminar on Numerical Analysis (graduate course)

Introduction to the Finite Element Method (graduate course)

Introduction to Finite Difference Methods for the solution of Partial Differential Equations (graduate course)

Ordinary Differential Equations (graduate course)

MASTER’S THESES DIRECTED

Christian J. Corley, Threshold Incomplete Factorization as a Preconditioner of an Iterative Solution for Nonsymmetric Systems of Linear Equations, M.S. Thesis, Duke University, June 1988.

Myra Wise Bologna, An Algorithm for the Classification and Comparison of Splittings for Singular Matrices, M.A. Thesis, Temple University, August 1999.

Nancy D. Wong, Computing Solid Angles by Barycentric Subdivision, M.A. Thesis, Temple University, May 2006.

DISSERTATIONS DIRECTED

Ricardo D. Pantazis, Parallel Solution of Generalized Symmetric Eigenvalue Problems, Department of Computer Science, Duke University, July 1991.

Judith Vogel, A Flexible Quasi-Minimal Residual Method with Inexact Preconditioning, Department of Mathematics, Temple University, August 2000.

First prize, student paper competition, Copper Mountain Conference on Iterative Methods, April 2000.

Abed Elhashash, Characterizations of matrices enjoying the Perron-Frobenius property and generalizations of M -matrices which may not have nonnegative inverses, Department of Mathematics, Temple University, September 2007.

Xiuhong Du, Additive Schwarz preconditioned GMRES, inexact Krylov subspace methods, and applications of inexact CG, Department of Mathematics, Temple University, June 2008.

POSTDOCTORAL SUPERVISION:

Sébastien Loisel, Ph.D. McGill University (2005), 2006–2009.

Marlliny Monsalve, Ph.D. Universidad Central de Venezuela (2009), 2009–2010.

Fei Xue, Ph.D. University of Maryland (2009), 2009–present.

MASTER'S AND DOCTORAL COMMITTEE SERVICE IN ADDITION TO STUDENTS SUPERVISED:

James O'Neil, Department of Computer Science, Duke University, M.S., 1987.

Phil Cimento, Department of Computer Science, Duke University, Ph.D., 1988.

Shing Ma, Department of Computer Science, Duke University, M.S., 1988.

Herve Tardif, Department of Computer Science, Duke University, M.S., 1988.

Paul J. Lanzkron, Department of Computer Science, Duke University, Ph.D., 1988.

Several others committees in the Departments of Mathematics and Mechanical Engineering, Duke University, 1986-1989.

Cristina Corral O., Departamento de Matemática Aplicada, Universidad Politécnica de Valencia, Valencia, Spain, Ph.D., May 1995.

Kostas Blathras, Department of Computer and Information Sciences, Temple University, Ph.D., August 1996.

Hwajeong Choi, Department of Mathematics, Temple University, Ph.D., July 1997.

M. Carmen Perea M., Departamento de Estadística e Investigación Operativa, Universidad de Alicante, Alicante, Spain, Ph.D., February 1998.

Hans E. Johnston, Department of Mathematics, Temple University, Ph.D., August 1999.

- M. Jesús Castel, Departamento de Ciencia de la Computación e Inteligencia Artificial, Universidad de Alicante, Alicante, Spain, Ph.D., July 2000.
- Josep Arnal, Departamento de Ciencia de la Computación e Inteligencia Artificial, Universidad de Alicante, Alicante, Spain, Ph.D., July 2000.
- Jian-Jun Xu, Department of Mathematics, Temple University, Ph.D., April 2001.
- Christian E. Schaerer Serra, Electrical Engineering Department, COPPE, Federal University of Rio de Janeiro, Brazil, Ph.D., July 2002.
- David Fritzsche, Department of Mathematics, University of Wuppertal, Germany, Diploma Thesis, June 2004.
- Duilio Tadeus da Conceição Junior, Instituto Nacional de Matemática Pura e Aplicada (IMPA), Rio de Janeiro, Brazil, Ph.D., March 2006.
- Stefan Borovac, Department of Mathematics, University of Wuppertal, Germany, Ph.D., July 2006
- Worku Bitew, Department of Mathematics, Temple University, Ph.D., April 2008
- Elena Virnik, Institute for Mathematics, Technical University, Berlin, Germany, Ph.D., May 2008.
- Selcuk Koyuncu, Department of Mathematics, Drexel University, Ph.D. Committee (2008-present).
- Benjamin Garret, Department of Computer and Information Science, Temple University, Ph.D. Committee (2008-present).

SERVICE:

SERVICE TO THE PROFESSION:

Editorial Work:

- Electronic Journal of Linear Algebra*, Associate Editor, 1995–2001. Associate Managing Editor, 1995–2003. Advisory Editor, 2001–2011.
- Electronic Transactions on Numerical Analysis*, Editor, 1998–2004. Editor in Chief, 2005–present.
- Mathematics of Computation*, Associate Editor, 2007–2010.
- Numerical Linear Algebra with Applications*, member of the editorial board, 2008–present.
- SIAM Journal on Matrix Analysis and Applications*, Member of the Editorial Board, 2003–2011.

BIT -Numerical Mathematics, Volume **34 (5)**, 2003. Editor, special issue of papers presented at the Conference on Computational Linear Algebra with Applications, Milovy, Czech Republic, August 4–10, 2002.

Linear Algebra and its Applications, Volume **302/303**, 1999. Editor, special issue of papers presented at the 7th Conference of the International Linear Algebra Society, Madison, Wisconsin, June 3–6, 1998. *MR 2000g:00091*.

Volume **386**, 2004. Editor, special issue of papers presented at the Fourth International Conference on the Numerical Solution of Markov Chains, September 3–5, 2003, University of Illinois at Urbana-Champaign.

Volume **429**, issue 20, 2008. Editor, special issue dedicated to Richard S. Varga's 80th birthday.

Reviewer for *Mathematical Reviews*, since 2007.

Member of the Editorial Board of the book series “Advances in Computation, Theory and Practice,” published by NOVA Science Publishers, 1998–1999.

Conference Work:

Gatlinburg X Conference, Fairfield Glade, Tennessee, October 19–23, 1987, organized session on eigenvalue problems.

Householder Symposium XI, Tylösand, Sweden, June 18–22, 1990, organized session on eigenvalue problems.

Special Session on ‘Numerical Linear Algebra’ for the American Mathematical Society Eastern Regional Conference, Philadelphia, October 12–13, 1991. Session Organizer.

Member of the Organizing Committee, International Workshop on Iterative Methods and Parallel Computation, Milovy, Czech Republic, June 16–21, 1997.

Member of the Organizing Committee, Conference on Numerical Analysis in honor of Olof B. Widlund on the occasion of his 60th birthday, Courant Institute, New York, January 23–24, 1998.

Special Session on ‘Sparse Matrix Computations’ for the American Mathematical Society Eastern Regional Conference, Philadelphia, April 4–6, 1998. Session Co-organizer.

Member of the Organizing Committee, ILAS98: The 7th Conference of the International Linear Algebra Society, Madison, Wisconsin, June 3–6, 1998.

Co-Organizer, Minisymposium on Parallel Asynchronous Methods, ILAS99: The 8th Conference of the International Linear Algebra Society, Barcelona, Spain, July 19–22, 1999.

Member of the Program Committee, Third International Conference on the Numerical Solution of Markov Chains, Zaragoza, Spain, September 6–10, 1999.

- Member of the Program Committee, Conference on Computational Linear Algebra with Applications, Milovy, Czech Republic, August 4–10, 2002.
- Member of the Program Committee, Fourth International Conference on the Numerical Solution of Markov Chains, September 3–5, 2003, University of Illinois at Urbana-Champaign.
- Co-organizer, Seminar on Theoretical and Computational Aspects of Matrix Algorithms, October 12–17, 2003, Schloss Dagstuhl, International Conference and Research Center for Computer Science, Wadern, Germany.
- Co-organizer, Minisymposium on Schwarz Preconditioners and Accelerators, Sixteenth International Conference on Domain Decomposition Methods, New York, 12–15 January 2005.
- Organizer, Minisymposium on Large Scale Computations for Markov Chains and PageRank (Google), Third SIAM Conference on Computational Science and Engineering, February 12–15, 2005, Orlando.
- Member of the Scientific Program Committee, Algoritmy 2005, Conference on Scientific Computing, March 13–18, 2005, High Tatra Mountains, Podbanske, Slovakia.
- Member of the Local Organizing Committee, XVI Householder XVI Symposium on Numerical Linear Algebra, May 23–27, 2005, Seven Springs Mountain Resort, Champion, Pa.
- Member of the Scientific Committee, Conference on Applied Linear Algebra in Honor of Richard S. Varga, 12–15 October 2005, Palić, Serbia and Montenegro.
- Member of the Program Committee, A. A. Markov Anniversary Meeting, Charleston, South Carolina, 12–14 June 2006.
- Organizer, Invited Minisymposium on Markov Chains, GAMM-SIAM Conference on Applied Linear Algebra, Düsseldorf, Germany, 24–27 July 2006.
- Co-organizer, Seminar on Web Information Retrieval and Linear Algebra Algorithms, 11–15 February 2007, Schloss Dagstuhl, International Conference and Research Center for Computer Science, Wadern, Germany.
- Co-organizer, Workshop on Structured Perturbations, and Distance Problems in Matrix Computations, 26–30 March 2007, Stefan Banach International Mathematical Center, Bedlewo/Poznan, Poland.
- Co-organizer, Minisymposium on Generalizations of the Perron-Frobenius Theorem and of M-matrices, Fourteenth Conference of the International Linear Algebra Society (ILAS), 16–20 July 2007, Shanghai, China.
- Member of the Scientific Program Committee, “Harrachov 2007,” Computational Methods with Applications, 19–25 August 2007, Harrachov, Czech Republic.

Member of the Scientific Committee, Ninth IMACS International Symposium on Iterative Methods in Scientific Computing, 17–20 March, 2008, Lille, France.

Member of the Scientific Committee, Conference on Applied Linear Algebra in Honor of Ivo Marek, 28–30 April 2008, Novi Sad, Serbia.

Member of the Organizing Committee, Fifteenth Conference of the International Linear Algebra Society (ILAS), 16–20 June 2008, Cancun, Mexico.

Member of the International Program Committee, Fifth International workshop on Parallel Matrix Algorithms and Applications, 20–22 June 2008, Neuchâtel, Switzerland.

Member of the Steering Committee, SIAG/LA-SIMUMAT International Summer School on Numerical Linear Algebra, 21–25 July 2008, Castro Urdiales, Spain.

Member of the Organizing Committee, Fast Algorithms for Scientific Computing: a symposium in honor of Olof B Widlund on the occasion of his seventeenth birthday, 19–20 September 2008, Courant Institute, New York University, New York.

Member of the Scientific Committee, Conference on Numerical Analysis and Scientific Computing with Applications, 18–22 May 2009, Agadir, Morocco.

Member of the Program Committee, SIAM Conference on Applied Linear Algebra, 26–29 October 2009, Monterey, California.

Member of the International Program Committee, Sixth International workshop on Parallel Matrix Algorithms and Applications, 30 June–2 July 2010, Basel, Switzerland.

Member of the Program Committee, Sixth International Conference on the Numerical Solution of Markov Chains, 16–18 September 2010, College of William and Mary, Williamsburg, Virginia.

Other Professional Service:

Reviewer for numerous proposals for the National Science Foundation, and for the Department of Energy.

Reviewer for a number of major journals in Linear Algebra, Numerical Analysis and Scientific Computing.

National Research Council, panel member for the evaluation of the National Science Foundation Minority Graduate Fellowships, Washington, D.C., February 14–15, 1991.

International Linear Algebra Society, appointed to the Committee on Electronic Publishing, 1993.

International Linear Algebra Society, appointed to the Committee on the Future of the Internet, 1993. Authored report on the Future of the Internet, 29 November 1993.

Oak Ridge Associated Universities, panel member for the evaluation of the National Science Foundation Minority Graduate Fellowships, Arlington, Virginia, February 15–17, 1995.

International Linear Algebra Society, appointed to the Nominating Committee, 1996.

External review panel for the Department of Mathematics, Baruch College, City University of New York, May 2000.

Member of the Board of Directors, International Linear Algebra Society (ILAS), 2001–2004.

Member of the selection committee for the 2006 award of the Richard C. DiPrima Prize. SIAM, Society of Industrial and Applied Mathematics.

Chair, SIAM Activity Group on Linear Algebra, 2007–2009.

Member of the Join Policy Board of Mathematics Committee for the Mathematics Awareness Month 2008.

Member of the Journals Committee, International Linear Algebra Society (ILAS), 2008–2011.

Member of the President's Advisory Board, International Linear Algebra Society (ILAS), 2008–2011.

Chair, Gene Golub SIAM Summer School Committee, 2010–2013.

SERVICE TO THE UNIVERSITY:

TAUP-Temple University Negotiating Committee, 2004–2005, 2008–2009.

Appointed to the Senate Committee on the Status of Women Faculty, 2002–2005.

Elected representative to the Faculty Senate, 1999–2001.

Appointed to the Latino Initiative Committee, 1997–1998, 1998–1999.

Affiliated Faculty of Latin American Studies, 1997–2006.

Participated in Information Technology Study, Spring 1995.

Participated in Computer Networks focus group, Spring 1993.

Participated in Library Survey of the Engineering and Science Library Task Force, Spring 1993.

SERVICE TO THE COLLEGE:

College of Arts and Sciences Scientific Research Advisory Committee, Spring 1993.

College of Arts and Sciences Committee on the Sciences, 1993–1994.

Promotions Committee of the College of Arts and Sciences, 1996–1998.

Promotions Committee of the College of Science and Technology, Chair, 1998–1999.
Member 2009–2011.

Undergraduate Committee of the College of Science and Technology, 2000–2001.

Dean Advisory Committee of the College of Science and Technology, 2007–2010.

Bylaws Committee, College of Science and Technology, 2007–2009.

Merit Committee, College of Science and Technology, 2008–2010.

SERVICE TO THE DEPARTMENT:

Director of Graduate Studies, Department of Computer Science, Duke University, 1986–1988.

Director of Undergraduate Studies, Department of Mathematics, Temple University, 1997–1999.

Executive Committee, Department of Mathematics, Temple University, 1997–1999, 2003–2006 (Chair, 2003–2004), 2008–2010.

Computer Committee, Department of Mathematics, Temple University, 1990–1997 (Chair, 1992–1994).

Library Committee, Department of Mathematics, Temple University, 1991–1992, 2000–2004, 2005–2006 (Chair, 2003–2004, 2005–2006).

Undergraduate Committee, Department of Mathematics, Temple University, 2000–2001.

Core Committee, Department of Mathematics, Temple University, 2001–2003.

In charge of the Research Reports, Department of Mathematics, Temple University, 1991–present.

Personnel Committee, Department of Mathematics, Temple University, 1991–1994, 1998–2001 (Chair, 2000–2001), 2004–2010. Chair of Search Committee, 1992–1993, 2008–2009. Member of the Search Committee, 1997–1998, 2003–2005, 2007–2008.

Spanish Exam Coordinator, Department of Mathematics, Temple University, 1991–1993, 1995.

Graduate Committee, Department of Mathematics, Temple University, 1992–1993, 2003–2006.

Volunteer adviser to several undergraduate and graduate students, 1992–present.

Informal adviser-mentor to two junior faculty members, 1992–1997.

Department Seminar on Applied Mathematics and Numerical Analysis, co-organizer, 1993–2000.

Gave several lectures each semester in the Department Seminar on Applied Mathematics and Numerical Analysis, 1993–2000.

Editor of the Temple University Mathematics Monthly (TUMM), New Series, 1997–2000.

Mathematical Models in Biology Seminar, Departments of Mathematics and Biology, co-organizer, 2000–2001.

Merit Committee, Department of Mathematics, Temple University, 2004–2007.

Applied Mathematics and Scientific Computing Seminar, co-organizer, 2004–2006, 2007–2008.

Chair Advisory Committee, 2007–2008.

Department Colloquium coordinator, 2007–2008.

OUTREACH AND SERVICE TO THE COMMUNITY:

Invited Lecture for the course “Discrete Mathematics” at Friends Select School, Center City Philadelphia, January 1994.

“What is it to be a Mathematician?” Keynote address at the Sixth Annual Mathematics and Science Symposium, Friends Select School, Center City Philadelphia, 25 April 1995.

Lecture to eighth grade about being a mathematician at the Gillespie Middle School Career Day, North Philadelphia, 2 May 1996.

Interviewed in Buenos Aires, Argentina, for popular science TV program on the topic of search engines. Aired on national TV in Argentina on 18 September 2005.

PAID CONSULTANCIES:

Inter-American Development Bank, Washington, D.C. International technical cooperation to assist the Argentine Planning Department on an Input-Output planning model, 1985–1987.

PROFESSIONAL MEMBERSHIPS:

American Mathematical Society (AMS), 1979–2003, 2008–present.

Association for Women in Mathematics (AWM) 1987–present.

International Linear Algebra Society (ILAS), 1988–present. Member of the Board, 2001–2004, Member of the President Advisory Board, 2008–2011.

Société Marocain de Mathématiques Appliqués, 2009–present.

Society for Industrial and Applied Mathematics (SIAM), 1980–present.

SIAM Activity Group on Linear Algebra, 1987–present. Chair, 2007–2009.

GAMM Activity Group on Applied and Numerical Linear Algebra, 2007–present.
