

Mid-Atlantic Numerical Analysis Day

A one-day conference on Numerical Analysis and Scientific Computing for graduate students and post-doctorates. A great opportunity to present your research and to meet other young researchers. The meeting features contributed talks and poster presentations.

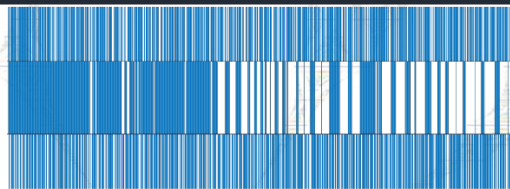

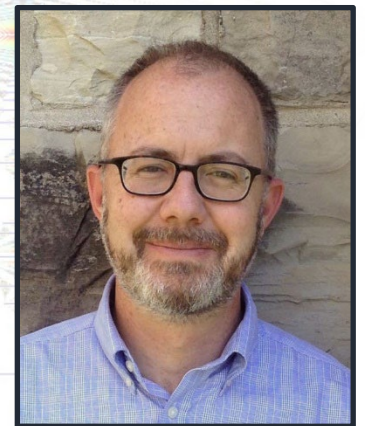

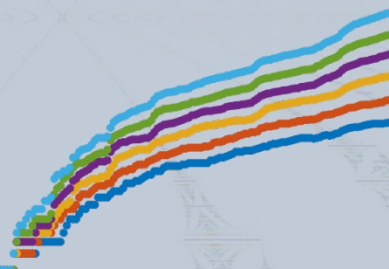

Friday, 15 November 2024

Keynote Speaker

Mark Embree
Virginia Tech

Spectral Computations for Quasicrystals

Meeting website:

<https://www.math.temple.edu/events/conferences/na-day/>

Register online

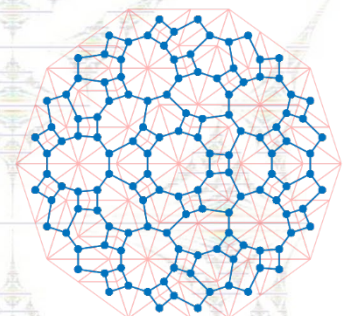

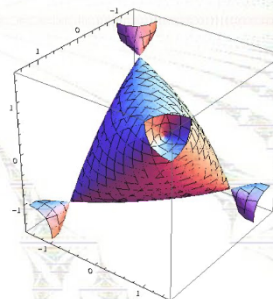

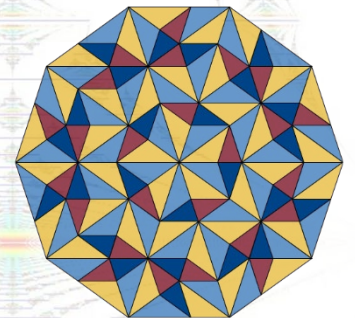

There is no registration fee, but every participant needs to register in advance.

Submit an abstract

For a contributed talk or a poster by 18 October 2024. Or simply join as a listener.

Make your own travel arrangements (see website for directions).

Email contact: naday@temple.edu

Organizers: Benjamin Seibold and Daniel B. Szyld

Sponsored by the Department of Mathematics, College of Science and Technology, the Graduate School, Temple University, and the Simons Foundation.
