Like $\pi$?

Join us for some pumpkin and pizza pies!

Wednesday 10/23 • 3 pm • Ritter Annex 571

It’s your love of mathematics to the $n^{th}$ degree.

Spread the joy of mathematics across an entire classroom and make a real difference in the world.

The Math for America (MfA) Fellowship offers a significant cash award to recent college graduates and mid-career professionals to teach mathematics in public secondary schools.

Over the course of five years, MfA Fellows become expert mathematics teachers through extensive and specialized training and support.

Here are just a few of the benefits of the MfA Fellowship:

- A master’s degree
- $100,000 stipend
- Membership in a community of experts
